

# Fusion Interleaf Flap Disc

The combination of a premium coated abrasive layer over non-woven surface conditioning material is what makes Fusion a superior flap disc. Fusion easily blends and finishes welds in one operation. Grain size is calibrated in order to match a #4 finish.

## PRODUCT FEATURES

- Blends and finishes stainless steel in one step
- Matches a satin finish
- Very controlled weld grinding
- High quality finish

## PRIMARY APPLICATIONS

- Blend corner welds on stainless steel railings
- Blend small TIG welds on stainless steel kitchen equipment

## SPECIFICATIONS

Coarse - Medium - Very Fine

## FOR USE ON

Stainless steel - Aluminum - Mild steel - Brass

## TIP!

While working on stainless steel with a satin finish, run this product in the same direction as the scratches to match the grain.
