

ADVANTAGE Grinding Disc

ADVANTAGE ceramic disc is engineered for fast and tough weld grinding without gouging the base metal. The Type 29 design along with the slightly flexible construction allows for a large surface contact area, making the wheel an excellent option for curved surfaces.

As metalworking industries call for faster and safer grinding options, this premium type 29 disc is engineered to meet this need. This easy to use lightweight wheel mixes fast stock removal and maximum operator control.

PRODUCT FEATURES

Ceramic grain for rapid stock removal
Type 29 for large surface contact area
Slight flex for maximum operator feel
Lightweight

FOR USE ON

Stainless steel, nickel alloys
