

# Type 1 Wheels For Pipe Threads

Oilfield Inspection Industry applications calling for rust, corrosion, and threadlock removal use Rex-Cut Type 1 wheels because of their forgiving nature.

## APPLICATIONS

Rex-Cut Type 1 GFX and HFX wheels are ideally suited for rust and corrosion removal from pipe threads.

JTX and MTX are designed for grinding thread roots and repairing cracks.

For threadlock removal without changing the thread geometry, Smooth Touch wheels with a medium bond are recommended.
